AGILE RF, INC. PRESS RELEASE

After four years with Agile RF (formerly Agile Materials & Technologies, Inc.) as its President and CEO, Nick Whelan is leaving the position to become a Strategic Advisor to the Board of Directors. This change in position allows Mr. Whelan the opportunity to focus solely on the strategic activities of Agile RF. Tom Goodwin has been named as the new Chief Executive Officer and President of the Company. Mr. Goodwin and Mr. Whelan will continue to work to implement Agile RF's vision to become a leader in the areas of tunable integrated circuits and modules in the markets for fixed and mobile wireless, automotive, and military. "Nick has been a valuable part of the Agile team and has been instrumental in helping the Company reach certain of its goals; we look forward to his continued involvement in executing on strategic activities," commented K. Leonard Judson, Chairman of the Board of Directors.

Mr. Goodwin brings over 25 years of experience in general management, marketing, and sales. As VP of Data Networking Sales at Ericsson, he was responsible for building and developing Ericsson's Data Networking Sales and Systems Engineering prowess. Prior to Ericsson, Mr. Goodwin was the Vice President and General Manager of Raytheon's Western Region, and oversaw \$50M in annual revenues for the region, as well as holding the position of Vice President of Raytheon Data Systems Worldwide Service Organization and Lease Portfolio, with annual revenues of \$110M. He received his BS degree in Engineering and MS in Engineering Management from Northeastern University, Boston, Massachusetts.

Mr. Whelan has 32 years of telecommunications experience in wireless and wireline systems. Most recently, Mr. Whelan assisted in the initial development and funding of two technology start-ups - Occam Networks and Fujant. Occam Networks is a developer and manufacturer of closed loop carrier systems. As a member of Occam's Board of Directors, Mr. Whelan advised founders on establishment, financing and organization of company. Mr. Whelan also held the position of CEO at Fujant, an organization that specialized in the design and manufacture of digitally linearized multi-carrier amplifiers for wireless base station infrastructure. He has 20 years of general management, sales, marketing, and engineering experience with Case Communications, Rockwell, and Tellabs International. Mr. Whelan holds a BSEE from the University of Limerick, Ireland.
